£2.5 BILLION SPEND NON CLINICAL TEMPORARY AND FIXED TERM STAFF 2

Crown Commercial Service
Workforce Alliance Partnership
RM6277

THE BREAKDOWN

- This procurement will provide a staff bank that NHS organisations can use to find personnel who provide flexible cover and support to permanent staff for planned and unplanned gaps in staffing.
- The Covid-19 pandemic has exposed an issue of understaffing within the NHS - this procurement may help the NHS by providing the necessary staff.
- In the NHS People Plan - NHS hospitals, trusts and primary care networks should prioritise the use of bank staff and they should reduce the use of 'off framework' agency shifts.
- In 2015 nearly 70% of NHS trusts and foundation trusts spent at least double what they had budgeted on agency staff.
